Job Description

SUMMARY

Performs inspection, maintenance and repairs on motorcoaches. Responsible for diesel engines, transmissions, brake systems, electrical trouble shooting, steering and cooling systems. Keeps track of the maintenance work on the vehicles. Ensures services provided are in compliance with safety procedures.

REASONABLE ACCOMMODATIONS STATEMENT

To accomplish this job successfully, an individual must be able to perform, with or without reasonable accommodation, each essential function satisfactorily. Reasonable accommodations may be made to help enable qualified individuals with disabilities to perform the essential functions.

ESSENTIAL FUNCTIONS

- Diesel Mechanics test drive vehicles, and test components and systems, using equipment such as infrared engine analyzers, compression gauges, and computerized diagnostic devices.
- Examine vehicles to determine extent of damage or malfunctions.
- Repair, reline, replace, and adjust brakes.
- Follow checklists to ensure all important parts are examined, including belts, hoses, steering systems, spark plugs, brake and fuel systems, injectors, wheel bearings, and other potentially troublesome areas.
- Confer with customers/employees to obtain descriptions of vehicle problems. Discuss work to be performed and future repair requirements. Review work orders and discuss work with supervisors.
- Perform routine and scheduled maintenance services such as oil changes, lubrications, tune-ups, and overhauls. Full inspection and repair of any unsafe or worn parts that would prevent the safe operation of the vehicle. Fuel and check fluid levels.

- Repair and service air conditioning, heating, engine cooling, and electrical systems.
- Test and adjust repaired systems to meet manufacturers' performance specifications.
- Tear down, repair, and rebuild faulty assemblies such as power systems, steering systems, and linkages.
- Plan work procedures using charts, technical manuals, and experience.
- Disassemble units and inspect parts for wear using micrometers, calipers, and gauges.
- Repair and replace parts, such as pistons, rods, gears, valves, and bearings.
- Rewire ignition systems, lights, and instrument panels.
- Repair manual and automatic transmissions.
- Suspension work to include repair or replacement of air bags, shock absorbers, and radius rods.
- Overhaul and replace carburetors, blowers, generators, distributors, starters, and pumps.
- Maintain cleanliness of work area.
- FTA Safety Sensitive Functions: operating a revenue service vehicle, including when not in revenue service, operating a non-revenue service vehicle, when that vehicle is required to be operated by a holder of a Commercial Driver's License (CDL), controlling dispatch or movement of a revenue service vehicle, and maintaining (including repairs, overhaul, and rebuilding) a revenue service vehicle or equipment used in revenue service

POSITION QUALIFICATIONS
